

## ENGLISH SUMMARY

## THE EDITOR

During Polarators second financial year has a majority learned to pronounce and spell the word Polarator. The name and the company as such is new but the assembled experience extend over 500 years!

**Increased**

The past year has implied that the Group has increased and the group structure has been uniformed.

Polarator has through the office furniture companies Horreds, JOC and Round Office a very firm selection in office furniture. Through the acquisition of Stjernmöbler we have established a concentrated investment in the retail trade. Moreover, the investment in Paradis Hotel is a concentration in hotel furnishing. Within decoration fabrics is the combination Kinnasand - Uddebo with separate companies for textile, wall-covering, carpets and furnishing fabric a concentration on each product line respectively.

In addition to this the Group has active selling subsidiary companies in Norway, Denmark, West

Germany, Switzerland and England. The possibilities to combine textile and furniture has during the year been introduced in Denmark and England.

**Possibilities**

A turn of a year means reflection of the past as well as an outlook before the new year and new possibilities.

In this paper is given a reminder about the soon finished year, so I will instead sum up the possibilities for 1989!

**Shall be used!**

We do have an extraordinarily knowledge within the Group combined with a product programme we can be proud of. This combination SHALL we use by taking care of expected possibilities.

Finally, all the collaborators are wished a well-earned time-off!

**MERRY  
CHRISTMAS  
and A HAPPY  
NEW YEAR!**

**Bengt Bergqvist**

STOCKHOLM  
GLOBE ARENA

The Globe-project will draw international attention to Uddebo Väveri for the furnishing fabric CENTAURI, chosen in severe competition.

The CENTAURI will be used for the seats in the arena which is to be used for the most changing purposes from ishockey to opera. The Globe will be a valuable reference that certainly makes "circles on the water" believe Bengt-Arne Bengtsson salesman at

Uddebo. He has decided to be among the very first at the inauguration to see the 13000 seats empty before the public is streaming in and hide the fabric!

Sven Markelius  
in the ceiling  
of United Nations

Swedish designer laid the foundation of Ljungbergs new print in New York (look at page 7). If you lie down on your back in the United Nations ECO-SOC hall, Markelius ceiling looks like this.

The chinese guide explains:

"The swedish architect Markelius symbolized successfully the work of United Nations; the permanently progressive, the never terminated."

Bastionen our new  
showroom in Copenhagen

The Showroom Bastionen in central Copenhagen was first shown November 18th.

In Bastionen are Horreds, JOC, Round Office, Kinnasand and Uddebo

cooperating.

It is the first in a row of great export ventures which now is coming out from the assembled fellowship within Polarator. The selling and the

working in the Danish market is done by our Danish friends Jens Peter Jensen in the furniture area and Allan Bastue in the textile area.
