Sven Jellbo, new Managing Director of Kinnasand!

As a new Managing Director of Kinnasand Textiles I feel that my principal task is to create an organisation where everybody is given chance to make their contributions as I know everybody is anxious to do.

As a previous engineer the production process is very close to my heart. One of the strenghts of Kinnasand is an excellent production with a genuin knowledge about textiles, and this is what we should impress upon our customers. Together with our expertis about design and market trends, this will give Kinnasand a strong future.

I wish you a nice holiday! Sven
